

Introducing

QuickBooks Online –

QuickBooks Online allows you to access your company data file anywhere, anytime over the internet, with the full functionality of QuickBooks Enterprise – the pinnacle of the QuickBooks range.

Benefits to you –

- as a QuickBooks Online subscriber, you can allow up to 30 users simultaneous access to your company data file
- advanced security – QuickBooks Online is hosted in the Reckon Data Centre, with mirrored servers across two locations in Australia to safeguard your company file. Access to your file by secure log in only.
- accountants and bookkeepers (who are Reckon Professional Partners) can access your company data file for free (with your approval) – which means that you and your accountant or bookkeeper can work on your company data file simultaneously.
- no need for software upgrades - QuickBooks Online environment is hosted by Reckon so all updates and upgrades to your account are instant.
