6 ...I am very pleased I have Direct Management as my bookkeepers. All loose ends are tidied up and I have peace of mind it's getting done right. They have taken the worry factor away from me. Everything is neat without being too complicated because they make it easy to follow. They've helped save me money in many ways through automating my processes and systems and helped make technology work for me. I can see I've saved a lot of money in just fees alone... 9
